

NPN Enhancements and Timelines

5G Advanced for Private Networks

Ravi Guntupalli

Group CTO, Provider Mobility @ Cisco Networking

September 2023

Use cases we see on NPN

NPN enhancements and timelines

Coverage

wide area coverage

Clean Spectrum

eliminate interference

Mobility

reliable handover

Enterprise Integration

latency, throughput, and scale

Security

cellular security

Public / Private

freedom of choice

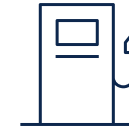

Venues

Manufacturing

Smart Warehousing

Oil and Gas

Education

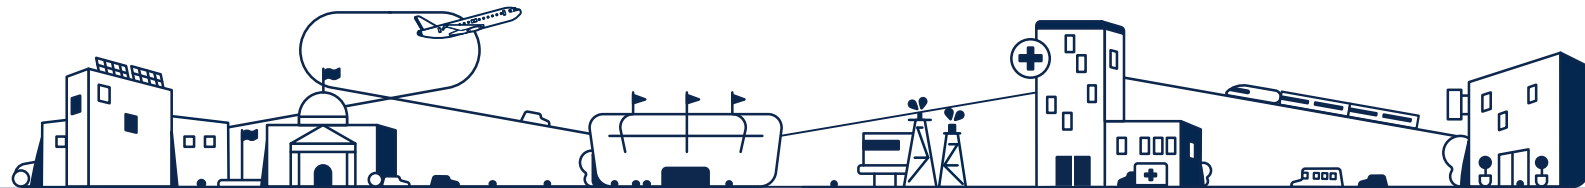

Mining

Transport

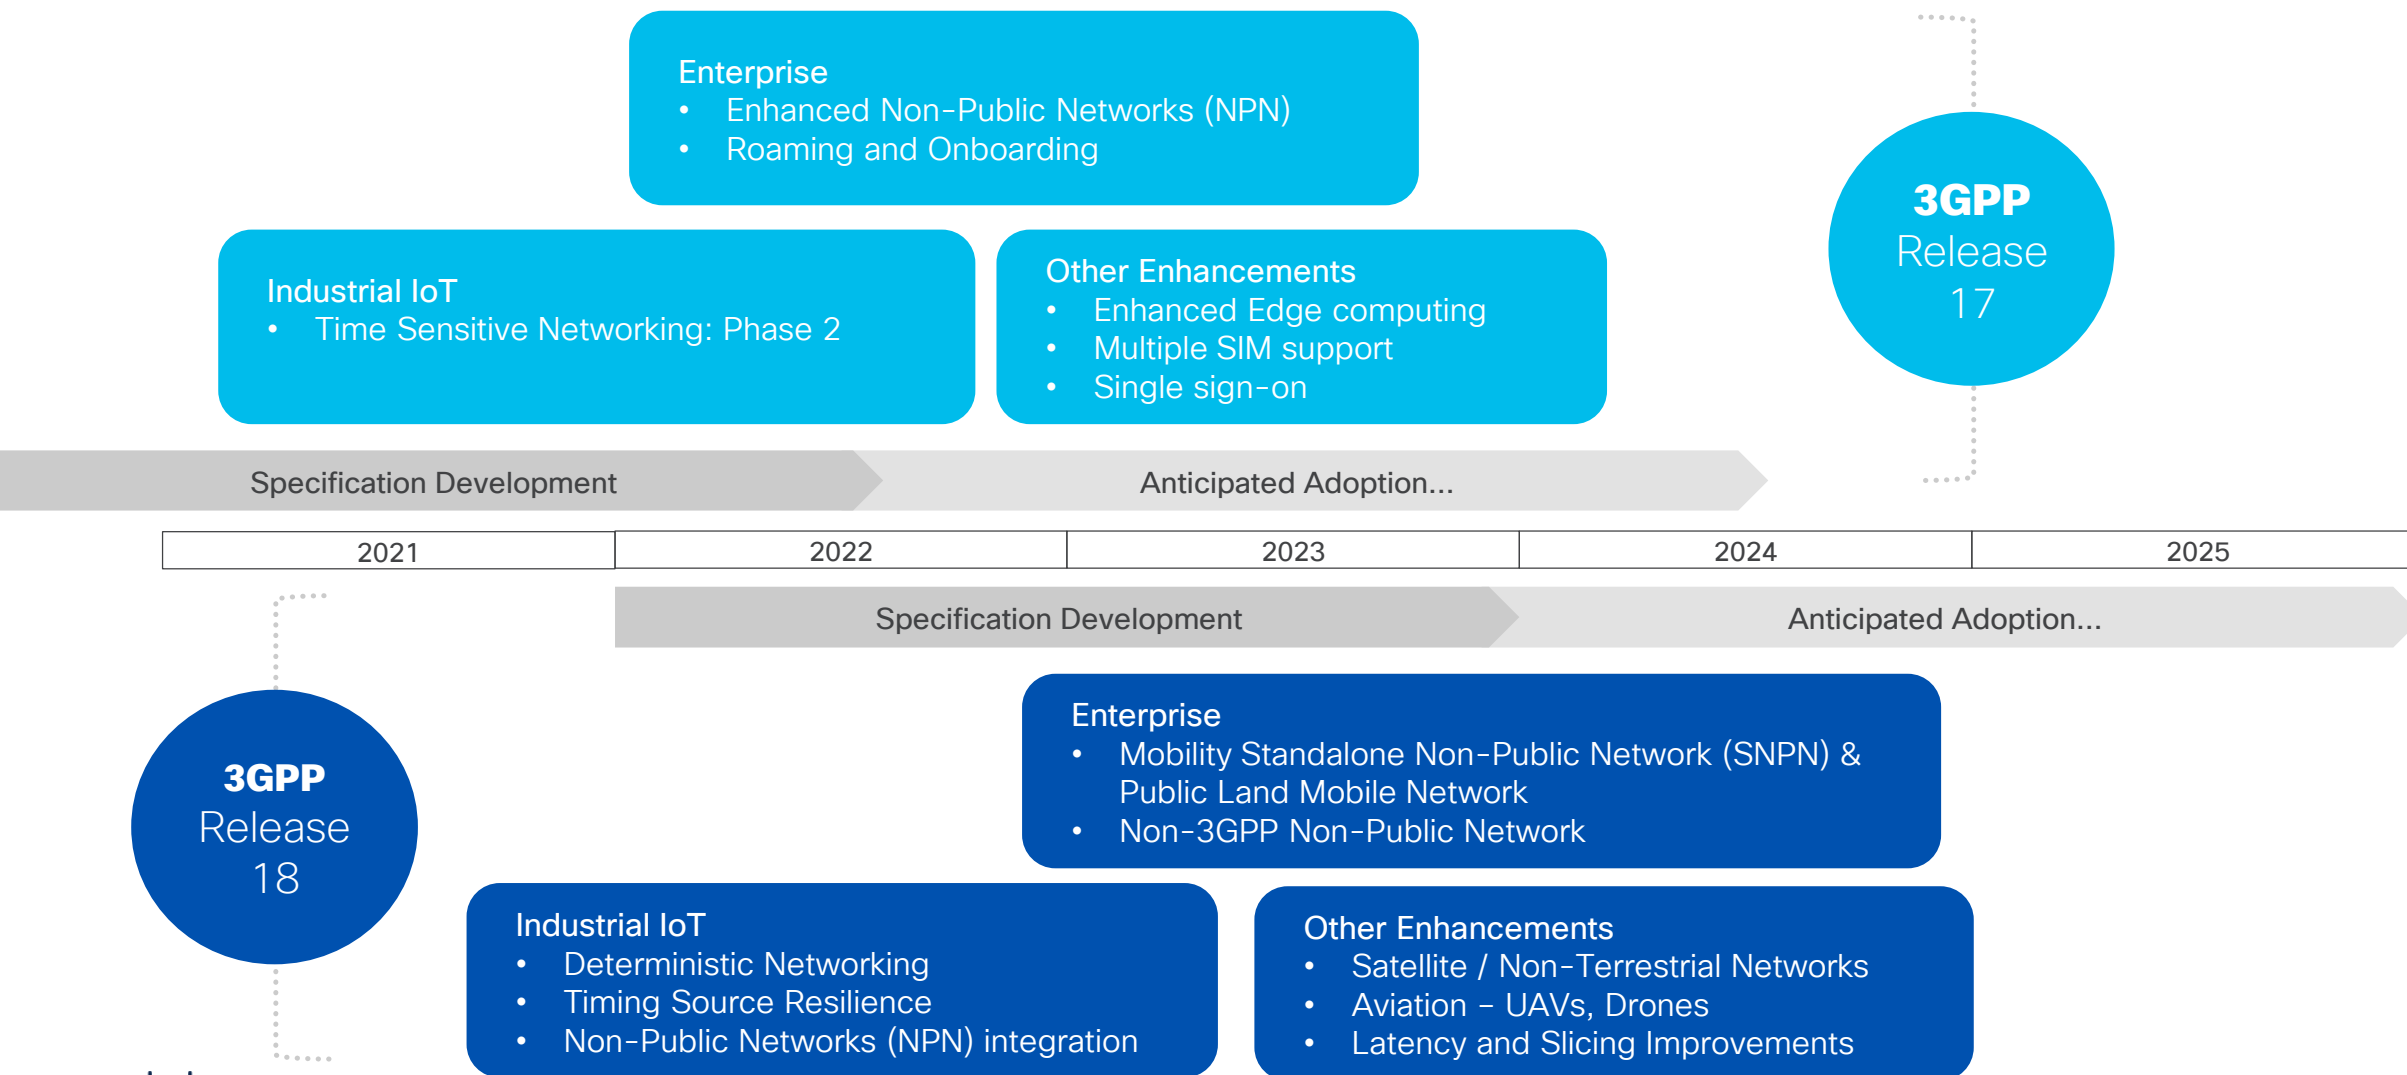

Healthcare

Industry Enhancements toward NPN

NPN enhancements and timelines

Drivers for Success

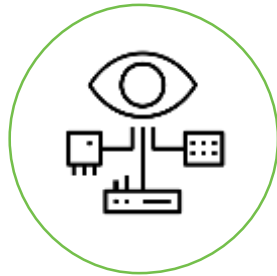

NPN enhancements and timelines

Device Ecosystem

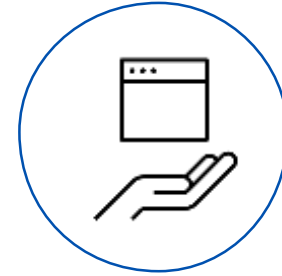

Maturity and availability of devices with NPN feature set at the right price point

Enterprise Integration

Tighter integration of 5G Advanced core capabilities with Enterprise ecosystem

Ease of Consumption

Easy to deploy, manage solutions with common security and policy across domains with visibility

The bridge to possible
